Node.js  
Express.js

Next.js

MySQL

CSS

Tailwind

HTML5

Git

## ABOUT ME

As a highly- adaptable, self-motivated, life-long learner, I began web development out of curiosity and found a passion for problem solving and creative projects.

Currently I am doing some freelance work with web portfolios and I am also developing projects. I'm looking forward to joining a diverse team where I can push my limits and grow. I'm a fast learner and enjoy a challenge.

My background in education and research has given me special insight into human relationships, data driven results, and problem solving.

## RELEVANTWORK EXPERIENCE

Lighthouse American School of Madrid

### First Grade teacher

2021-2023

- Developed a data driven first grade curriculum from scratch
- Planned lessons that met the academic and psychosocial objectives
- Researched and implemented the latest educational methodologies
- Managed a classroom of 6 year olds
- Interfaced with parents to discuss their needs, trouble shoot issues, and present student progress.

After moving to Spain, I held several teaching positions. The responsibilities of this position allowed me to develop my research, management, and communication skills.

New York Life Insurance

2012-2017

### Office Administrator

- Researched and prepared proposals and presentations
- Discussed policies and client data with doctors, lawyers, underwriters, and insurance agents
- Provided customer service

Here, I was at the intersection of the stakeholders and the software and technical knowledge used to meet their needs and constraints. This experience illustrated how much I love to be able to learn new skills that can help someone reach their goals.

Philadelphia Youth Network June 2016 - December 2016  
**Research and Evaluation Intern**

- Completed literature reviews
- Organized relevant research and collected data

While in Philadelphia, I worked in several research institutions and non-profit organizations. These roles enabled me to gain hands-on experience in research focused on poverty, equity, and access to education in the city.
